

Long Range RFID First Responder Stand Alone Access Control System

Long Range, Hands-Free Stand Alone RFID Reader System designed to provide fast and secure gate access control at gated communities and commercial facilities for all first responders, including police, fire, rescue and private security vehicles.

The FRT-1000 First Responder Access Control System includes an adjustable range (20'-500') Vehicle ID Reader, Access Control Panel, weatherproof enclosure, power supply with battery back up, and a remote Omni-Directional Antenna.

The Access Control Panel can be set up to open the entrance gate or open the entrance and exit gate simultaneously.

Features:

- * Compatible with all automatic gate operators
- * Provides simultaneous Serial and Wiegand protocols.
- * Small, lightweight, with low power draw and full battery backup
- * Adjustable Tag read range (20'- 600') with standard Antenna
- * Encrypted Transmission between Tags and Readers
- * Unlimited Vehicle Tag capacity
- * Optional "Plug and Play" Directional Antennas available

Remote Omni-Directional antennas can be discreetly hidden to blend in with the aesthetics of the facility landscape.

Optional access controllers with software are available to keep track of and record all first responder vehicle activities.

Tags and Readers provide an accurate and real-time ability to detect, track, control and monitor vehicles, assets and personnel. This dynamic technology can be applied to operations and processes in all types of industries.

APPLICATIONS

- *Transportation
- * Mining
- * Emergency Evacuation
- * Supply Chain
- * Petrochemical
- * Healthcare
- * Manufacturing
- * Gated Communities
- * Education

Reader Specifications

RX Frequency.....433.92 Mhz
Power Requirement.....9VDC - 24VDC@300mA

Operational Temperature -40° to +158°F
Humidity...5%-90% (non-
Size..... 12in x 9in x 5in non-condensing)
Weight.....5 lbs
Color.....Light Grey
